

# **MTAR TECHNOLOGIES LIMITED**

## **Information Security Policy**

Information security management system is integral to MTAR processes. We strive integrity of all information we disseminate, produce, manage or store and commit to protect our information assets from any internal, external, deliberate or accidental threats through:

- Ensuring that all information is treated with complete confidentiality and maintain it's integrity and availability,
- Complying with all applicable requirements and continual improvement of information security management system,
- Safeguarding security of our information assets through effective business continuity management, and
- Establishing information security objectives and review the same periodically,

This information security Policy is communicated to all persons within MTAR and is made available to relevant interested parties, as appropriate.
